

INTERNATIONAL SOCIETY  
OF  
CRYOSURGERY

ESTABLISHED IN 1974

Dear Colleagues

The

**International Society of Cryosurgery**

(I.S.C.) was established in 1974 to promote continuing education medical in the field of cryosurgery.

ISC is a non-profit, apolitical, non-party and non-sectarian society.

Purpose of the Society is:

- to promote, develop, advocate and diffuse knowledge on the use of low temperature and related technology for therapeutic and conservative aims in biology and, generally, in science;
- to foster by all means the prevention, diagnosis and treatment of any pathologies in both the human and veterinarian fields that may be treated by low temperature techniques at individual and institutional level;
- to raise as many opportunities as possible in order to put all people who share the above stated purpose, may be interested in it, or can help to reach it, in touch with each other

- to arrange meetings and congresses in different locations at least once every two years.
- to organize international activities and join forces with other associate members who do so, with special regard to anything that furthers the exchange of knowledge and cooperation;
- to promote, coordinate and support scientific programs concerning cryosurgery.
- to get in contact and enter into partnerships with domestic and international associations that have relevancy to the above stated purpose;
- to divulge literature –books, magazines, et al.–concerning cryosurgery and anything related to it, through all available channels.

**Franco Lugnani MD**

President

International Society of Cryosurgery

**[www.societyofcryosurgery.org](http://www.societyofcryosurgery.org)**

Cryosurgery has, today, a wide range of clinical applications:

- Prostate
- Kidney
- Liver
- Lung
- Bone
- Neuro
- Pain
- Orl
- Ob Gine
- Skin
- Heart
- Pancreas
- Ophtalmology
- Breast

Every second year a different continent hosts a major world congress with a wide-ranging scientific programme covering all areas of cryosurgery and cryobiology.

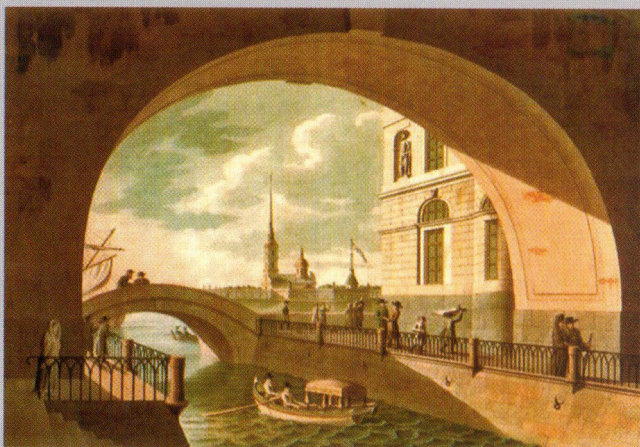

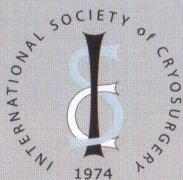

The 14th International Congress took place in Beijing, China, in November 2007.

The Next I.S.C. World Congress:

**World Congress of Cryosurgery**  
**St.Petersburg**  
**July 2009**

**INTERNATIONAL SOCIETY OF CRYOSURGERY  
ESTABLISHED IN 1974**

**15th World Congress of Cryosurgery**

**St. Petersburg (RUSSIA)  
July 2009**
